INDIANA GIRLS' SONG DELIGHT

Old Ballad Said to Contain Many Pretty Strains.

A new song now popular in New York, which is said to be one of the oldest affairs written in some time is a march ballad just out, called "A Girl in Your Arms is Worth Two in Your Dreams." A peculiar feature of the work is that it is only one octave in range. The song was written by Percy Wenrich, author of "When You Were a Tulip," and other popular hits. Here is a part of the chorus:

A Girl in Your Arms Is Worth Two in Your Dreams

For a girl in your arms is worth two in your dreams. You're hesi-tat-ing, And I've been wait-ing For a long, long time, it seems; And I'll be in clo-ver

Probably the chief cause of the song's popularity is that its text, while romantic in idea, possesses no suggestive thought but a sort of refined theme which appeals to women and because the melody is linked with pretty harmonies easy to sing.

DROPSY TREATED FREE

By Dr. Miles, the Great Specialist, Who Sends a New \$3.75 Treatment Free. Many Cured After Others Failed.

At first no disease is apparently more harmless than dropsy; a little swelling of the eyelids, hands, feet, ankles or abdomen. Finally there is great shortness of breath, cough, faint spells, sometimes nausea and vomiting, even bursting of the lungs and a lingering and wretched death if the dropsy is not removed.

Dr. Miles has been known as a leading specialist in these diseases for 30 years. His liberal offer of a \$3.75 Treatment free to all sufferers, is certainly worthy of serious consideration. You may never have such an opportunity again.

The Grand Dropsy Treatment consists of dropsy remedies in one, also Tonic Tablets and Pura-Laxa for removing the water. This treatment is specially prepared for each patient and is three times as successful as that of most physicians. It usually relieves the first day, and removes swelling in six days in most cases. Delay is dangerous.

Send for Remarkable Cures In Your State. All afflicted readers may have Book, Examination, Chart, Opinion, Advice, and a Two-Pound Trial Treatment Free. Write at once. Describe your case. Address, Dr. Franklin Miles, Dept. DA, 906 to 915 Main St., Elkhart, Ind.—Advtd.

Don't Be Scared Into Risking An Operation

WE HAVE SAVED SCORES FROM THE SURGEON'S KNIFE AFTER THEY HAD BEEN GIVEN UP BY OTHER DOCTORS, AND WE CAN DO THE SAME FOR YOU IF YOU WILL GIVE US THE CHANCE.

DR. W. M. LAWHON, Consulting Physician, 16 years' experience. I examine and treat you personally each time you call.

FOR YOU CAN TAKE OUR TREATMENT AND PAY US WHEN YOU GO BACK TO WORK.

United States Senator Weeks, in a recent speech before the senate, clearly sets forth the fact that thousands of surgical operations are uselessly being performed simply for the sake of collecting a fancy fee. In a recent address given by Dr. Jno. M. T. Finney, a noted authority of Philadelphia, he asserts that a large percent of surgical operations are signal failures and are absolutely uncalled for. Dr. Overall of Chicago, another noted authority, claims that injury once done the prostate by the knife is irreparable. Keyes, perhaps the most noted authority in this country, says: "There is but one condition calling for an operation, and that is the failure of all other treatments." Still many doctors claim that the only way to cure the diseases of our specialty is by the use of the knife. We have saved scores from the surgeon's knife and at a cost even less than the ordinary hospital fee. We can do as much for you.

OUR SPECIAL OFFER

We are making a special offer to afflicted men. One that will surprise you when you investigate. This offer will enable every man to regain his health, no matter what his circumstances may be. Moreover our fees are within reach of every man. IF YOU ARE OUT OF WORK AND NEED TREATMENT, DON'T FAIL TO CALL. FOR YOU CAN TAKE OUR TREATMENT AND PAY US WHEN YOU GO BACK TO WORK.

VITAL DISEASES

The Most Prevalent and Serious Disease Among Men Past Forty

According to Dr. Hurty, secretary state board of health, the Prostate gland is perhaps the most important gland in the body, being of extreme importance to the physical and mental and reproductive stability of man. Diseased conditions of this gland are accompanied by the most pronounced disturbances of other functions such as weakness, loss of ambition, strength, vim, vigor, vitality, headache, backache, dizziness, loss of appetite, mental hallucinations, a feeling of impending danger, weak trembles, cold feet, frequent urination, especially at night; specks before the eyes, Male weakness, or total loss of power, constipation, pain in rectum or at neck of bladder, hot and cold flashes, nervous restlessness, inability to concentrate mind, thoughts wander, easily fatigued on little exertion, loss of confidence, cloudy, foul smelling urine, etc.

Are the most widespread diseases among the male population and are doing more harm to the race than tuberculosis or cancer. Eighty percent of the male population between the ages of 18 and 30 contract one or both of these diseases. These diseases may be infectious, long after all visible symptoms have disappeared. They are responsible for one-third of all blindness, cause three-fourth of all abdominal operations in women and are the principal cause of race suicide. Causes nearly all stricture and 75 percent of prostatic diseases. Yet from ignorance of the terrible character of these diseases it is not uncommon to hear young men laughingly boast as if having them were something to be proud of.

—PRIVATE— CONTRACTED— DISEASES—

Why Not Get the Best First? It Will Cost Less Than the Worst.

The diseases of our specialty are diseases of which the general practitioner is rankly ignorant, he knowing but little more about them than you. He is wholly unprepared in experience, knowledge and equipment and totally unable to successfully treat them and when he undertakes their cure he will more than likely cause or allow serious complications to arise, which sooner or later necessitate the services of a skilled specialist.

No Knife—RUPTURE AND PILES CURED—No Knife \$10—EXAMINATION FREE—\$10

OUR FEES—Are reasonable, about half what the ordinary doctor would charge you for same services. We can afford this on account of the vast business we do, being fifteen to twenty times that of the average doctor or specialist.

WE GUARANTEE Free Consultation. Prompt and Courteous Attention and Satisfactory Results. Demonstrated by Scientific Tests.
